

Entry Header

Name:

Aswina Sivaloganathan

Role:

Programmer

Short description:

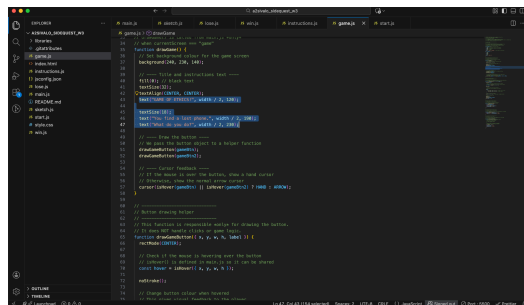

- Converted the game screen into a branching interactive story.
- The player chooses between two options after finding a lost phone.
- Choice determines which ending screen is displayed.

Small decision or changes made:

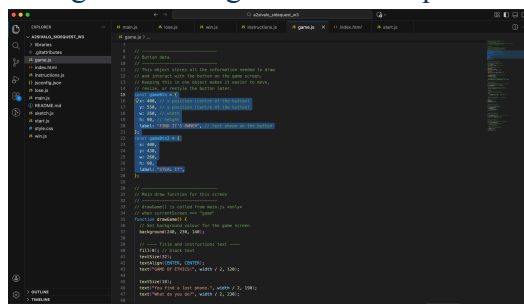

- Replaced outcome with player-driven logic.
- Updated button labels and story text.
- Adjusted layout and instructions for clarity.

Evidence:

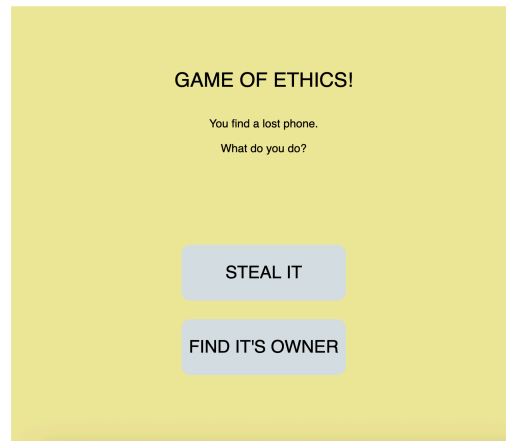

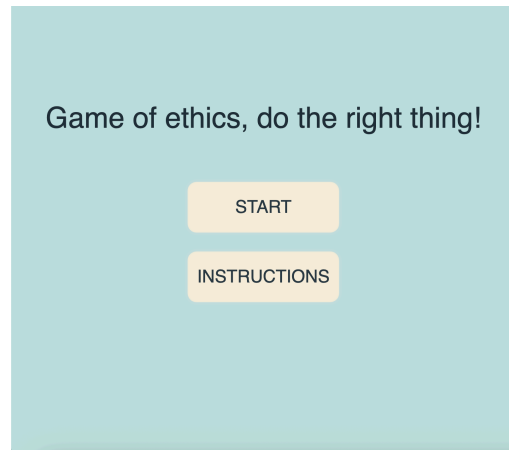

Change #1: Changed the text to what my interactive story is (game of ethics)

Change #2: Changed the end outputs based on user input

Final Result:

GenAI Documentation

No GenAI tools were used for this task.

Tools, Resources, Inputs Used

- Lecture Notes
- GBDA 302 Week 3 Example Code
